1. A very timely briefing on new developments in Soviet air defense radars was presented to the Air Force Systems Command Intelligence staff on 8 April 1976 by your Office of ELINT (OEL) staff. This subject area is of vital interest to this Command because new weapon systems must be responsive to the current and future threat.

2. The professionalism exhibited in the analysis and presentation of the complex ELINT data reflects highly on OEL and the briefing team of Messrs.

3. We appreciate the obvious efforts you have taken to assure a spirit of active cooperation between our organizations. If we can be of assistance to you in any way, please do not hesitate to contact us.
